SUBJECT INDEX VOLUME IV

(ab.) = Abstracts; (CR) = Cardiac Resuscitation; (DS) = Diagnostic Shelf; (E) = Editorial; (LE) = Letter to the Editor; (PN) = Progress Notes in Cardiology; (QC) = Query Corner; (WC) = Workmen's Compensation

Abdomen
  aortic occlusions of, surgery for, 622
  aneurysms, surgery for, 622
Abstracts of highlights of eighth annual convention, American College of Cardiology, 272–276
Acceleration, low frequency tracings of precordial displacement and, 669
Accrochage and synchronization in incomplete heart block (DS), 818
Activation, electrical and mechanical, relationship between (ab.), 272
Adrenal
  cortex, relationship to hypertension, 719
  function, effects of stress on, 711
  hyperplasia, congenital, and hypertension, 719
  regeneration hypertension (PN), 412
Aldosteronism, primary, hypertension in, 719
American College of Cardiology
  Abstracts of highlights of scientific session, eighth annual convention, 272–276
  Eighth interim meeting, 426
    Scientific program, 563
  Election of officers for 1959–60, 426
  General convention schedule, 564
  Highlights of scientific session, eighth annual convention, 272
  Honorary fellows, 426
Aneurysms
  of sinus of Valsalva, rupture into right ventricle (DS), 551
  abdominal aortic, surgery for, 622
  cerebral, unusual manifestations of, 452
Angiocardiography, left ventricular, in persistent atrioventricular canal and related anomalies, 802
Angiospasm, problem of (ab.), 275
Announcements
  International symposium on cardiology in aviation, 277
  Second annual symposium on cinefluorography, 426
  Seminar on electrocardiographic exercise test, 134
  Sixth Inter-American Congress of Cardiology, 426
  Symposium on catecholamines in cardiovascular pathology, preliminary program, 134
Anoxia, brain damage following, 229
Anticoagulant therapy
  long term, 470
  in deep venous thrombosis and pulmonary embolism, 611
Aorta
  abdominal aneurysms of, surgery for, 622
  coarctation of, experiences with, 775
    in father and son, 540
    in Marfan's syndrome, 543
  hypoplastic, as primary or secondary factor, 528
  occlusions of abdominal, surgery for, 622
  rupture and dissection of, in Marfan's syndrome, 543
Aortic
  and mitral stenosis, combined, 479
  arch, 19th century descriptions of atherosclerotic occlusion of branches of, 118
  bifurcation, surgery for, 622
  insufficiency, open heart surgery for, 147
Aortic stenosis
  calcific, corrected by surgery, 135
  open heart surgery for, 147
Aorticoiliac arterial disease, 622
Aortography, suprasternal thoracic, in regurgitant lesions of cardiac valves, 686
Apex, diastolic and presystolic murmurs of, proved functional in nature, 501
  impulse of, real and apparent, in tricuspid lesions, 367
Arlidin therapy in intermittent claudication, 605
Arrhythmias
  acute and chronic, quinidine blood levels in (QC), 268
  cardiac, effect of calcium chelation on, 287
Arterial circulation in extremities, tests for, 597
Arterial occlusive disease, femoropopliteal, surgery for, 632
Arteriography in cerebral aneurysms, 452
Arteriosclerosis, coronary, as cause of acute cardiac insult (WC), 416
Artery
  disease
    aorticoiliac, diagnosis and surgical approach to, 622
    coronary, serum triglyceride and radioactive fat tolerance in (ab.), 272
    coronary, thromboendarterectomy for (ab.), 272
  ligation, bilateral internal mammary, for coronary heart disease, 180
  occlusion, peripheral, glutamic oxalacetic transaminase in, 211
Asphyxia, cerebral response following, 229
Atherosclerotic occlusion of branches of aortic arch, 19th century descriptions of, 118
Athletes, ballistocardiographic studies on, 105
Atresia
  congenital pulmonary artery, and tricuspid hypoplasia, 401
  and tricuspid stenosis, 691
Atrial fibrillation, complete A-V block and alternating right and left bundle branch block, 248
Atrioventricular canal, persistent, left ventricular angiocardiography in, 802

July (pp. 1–134); August (pp. 135–278); September (pp. 279–426); October (pp. 427–564); November (pp. 565–706); December (pp. 707–838)

A-V block associated with alternating right and left bundle branch block, 248
A-V dissociation
and bigeminal rhythm due to 3:1 S-A block, 826
murmur of mitral stenosis modified by, 821
A-V nodal rhythm with dissociation in WPW syndrome, 341

Bacterial endocarditis, continuous intramuscular-drip penicillin therapy in, 100
Bahamas, epidemiology of hypertension with particular reference to, 727
Ballistocardiogram
clinician's approach to, 508
in functional heart disease, 379
in studies on athletes, 105
comparison of systems, 232
Bigeminy, escape-capture, 826
Blood
flow redistribution in human extremity, 566
levels, quinidine, in acute and chronic arrhythmias (QC), 268
pressure regulation and transmembrane cationic gradient, 752

of Valsalva, rupture of aneurysm of, into right ventricle (DS), 551
stimulation, carotid, suppressive effect of, 314
Sodium
retention, diuretic therapy in syndromes associated with, 786
versenate, effect on cardiac arrhythmias and conduction disturbances, 287
Sitosterol, and radioactive fat absorption patterns, 282
Spatial electrical fields of heart, recording and interpreting (ab.), 273
Spectral phonocardiography, 200
Stenosis
combined mitral and aortic, 479
mitral, 410
and gallstones (PN), 130
murmur modified by A-V dissociation, 821
pulmonic, kinetocardiograms, electrocardiograms fluoroscopy and cardiac catheterization in, 652
tricuspid, and congenital pulmonary atresia, 691
Steroid
excretion in essential and renal hypertension, 719
therapy in postviral myopericarditis, 56
Strain, relationship to acute cardiac insult (WC), 261
Stress
as etiologic factor in essential hypertension, 711
effects of, on pituitary and renal function, 711
Subarachnoid bleeding, aneurysms as likely cause of, 452
Suprasternal thoracic aortography in regurgitant lesions of cardiac valves, 686
Surgery
correction of calcific aortic stenosis by, 135
for coarctation of aorta, 775
for mitral stenosis, 163
in aorticoiliac arterial disease, 622
in combined mitral and aortic stenosis, 479
in femoropopliteal arterial occlusive disease, 632
mitral, in young girl (QC), 132
open heart
accomplishments of, 147
electrocardiogram during (PN), 698
hypothermia and extracorporeal circulation for (PN), 256
Sympathectomy, lumbar, evaluation of, 644
Symposia
on peripheral vascular disorders, 565–648
on phonocardiography, 1–41, 184–210, 351–372, 492–507, 649–676
Synchronization and accrochage in presence of incomplete heart block (DS), 818
Systolic triple rhythms, 492

Tachycardia, recurrent ventricular (QC), 706
Tetralogy of Fallot, open heart surgery in, 147
Thoracic pain in acute pericarditis, 68
Thromboembolism of lungs (PN), 412
Thromboendarterectomy for coronary artery disease (ab.), 272
Thrombophlebitis, management with phenylbutazone, 476
Thrombosis, deep venous, and pulmonary embolism, 611
Transaminase, glutamic oxalacetic, in peripheral artery occlusion, 211
Transaortic valvuloplasty, 135
Transmembrane cationic gradient and blood pressure regulation, 752
Tricuspid
and mitral murmurs and sounds, differentiation of, 367
hypoplasia, and congenital pulmonary artery atresia, 401
lesions, real and apparent apical impulse in, 367
stenosis and congenital pulmonary atresia, 691
valvular regurgitation detected, with indicator-dilution technic (ab.), 274
Triglyceride, serum, in coronary artery disease (ab.), 272
Trimethidinium methosulfate, evaluation of, 745

Ultra low frequency precordial movements
estimation of pulmonary artery pressure and pulmonary vascular resistance from, 662
kinetocardiograms, 649
Uremia, digitalis toxicity in (QC), 705

Valsalva, rupture of aneurysm of sinus of, into right ventricle (DS), 551

Valvuloplasty, transaortic, 135
Vascular
  cells, interaction of corticoids, catecholamines and electrolytes on, 752
  resistance, pulmonary, estimated from kinetocardiogram, 662
Vasodilator, new coronary, observations on (ab.), 274
Vasomotor activity, pulse registration as means of evaluating, 572
Vectorcardiograms in WPW syndrome, 321, 334
Vena cava
  filter in multiple pulmonary embolism, 611
  persistent left superior, 677
Venous
  anomalies, pulmonary, associated with persistent left superior vena cava, 677
  thrombosis, deep, and pulmonary embolism, 611
Ventricle, right, rupture of aneurysm of sinus of valsalva into (DS), 551
Ventricular
  angiocardiography, left, in persistent atrioventricular canal, 802
  asynchronism, value of ballistocardiogram in detection of, 508
  beats, premature, suppressive effect of carotid sinus stimulation on, 314
  captures, reciprocal beats masquerading as (DS), 128
  complex, vectorial interpretation of, in WPW syndrome, 321
  extrasystoles, myocardial infarction pattern disclosed by (DS), 695
  fibrillation
    cerebral response following, 229
    treatment of (CR), 700
  hypertrophy
    kinetocardiograms in differentiation of right ventricular pressure load and flow load in, 652
    right, with right bundle branch block, 294
  pressure, right, and flow loads, 652
  puncture, direct left (PN), 130
  rates, slow, hemodynamic findings in heart block with, 440
  septal defect
    hemodynamic and clinical changes following open heart surgery in, 155
    open heart surgery in, 147
  tachycardia, recurrent (QC), 706
Ventriculography, cardiac, complications of, 686
Vibrations, heart, method for analyzing, 184
Vibrocardiogram, displacement, of precordium in low frequency range, 191
Virus, influenza, postviral myopericarditis associated with, 56

Water retention, diuretic therapy in syndromes with, 786
Win 5494, observations on (ab.), 274
Wolff-Parkinson-White syndrome, 321, 334, 341, 346
Workmen's compensation for the cardiac
  Announcement of study on legal principles involved in cardiac disability due to strain and trauma, 266
  Coronary arteriosclerosis as underlying cause of acute cardiac insult, 416
  Emotional disturbance as cause of acute cardiac insult, 557
  Relation of recurring myocardial infarction to previous infarct, 703
  Relationship of strain to acute cardiac insult, 261
  Minutes of meeting of Workmen's Compensation Committee, American College of Cardiology, 266
WPW conduction
  multiple variation of, 346
  vectorcardiograms during, 321
WPW syndrome, 321, 334, 341, 346
